

Battery Compatibility Chart for Flashguns

Find your flash or camera in the left column. Then read across to locate the compatible modules or cables to fit the Quantum power packs listed in that column.

Short Turbo cables have a code starting with an extra 'C': CCZ is a short cable for some Canon flashguns, whereas CZ is the long version.

Quantum Battery 1 Compact accepts both Bantam modules (short cable) & Battery 1+ modules (long cable).

Digital Cameras are listed on a separate sheet.

¹ All Turbos may require no charge factory modification to operate with flash. ³ Note CM5+ instruction manual restrictions when used with Turbo not Turbo Z.

² QB1c not recommended for use with this flash use Bantam only. ⁴ Battery compartments have changed on newer units with same model #. Old units use XF3, MF3
